

Advocate Diary Page — API Network Specification

Detailed breakdown of all APIs invoked on /app/diary (Network tab trace)

Frontend Component: DiaryPageComponent (diary-page.component.ts)

1. Initial Page Load & Event Fetching APIs

GET /api/diary/scope-options

Initiator: DiaryPageComponent.ngOnInit() → Line 249 (this.ds.getDiaryScopeOptions())

Purpose: Checks user permissions (scope_team / scope_org) to render scope filter tabs ("My Diary", "Team Diary", "Firm Diary") and populates the team member dropdown list.

QUERY PARAMETERS / REQUEST PAYLOAD

None (Headers: Authorization Bearer Token)

RESPONSE PAYLOAD FORMAT (200 OK)

```
{
  "status": 200,
  "message": "Success",
  "data": {
    "canTeam": true,
    "canOrg": true,
    "teamMembers": [
      {
        "id": 1,
        "name": "Admin User",
        "email": "admin@tubalaw.com",
        "role": "Admin",
        "initials": "AU",
        "gradient": "linear-gradient(135deg,#b45309,#d97706) "
      }
    ],
    "orgMembers": []
  }
}
```

GET /api/diary/events

Initiator: DiaryPageComponent.loadEvents() → Line 255 (this.ds.getDiaryEvents())

Purpose: Fetches stored custom advocate appointments, conferences, meetings, and deadlines for the active month and scope.

QUERY PARAMETERS

```
?year=2026&month=8&scope=own&memberId=1
```

RESPONSE PAYLOAD FORMAT (200 OK)

```
{
  "status": 200,
  "message": "Success",
  "data": [
    {
      "id": 302,
      "title": "Client Strategy Meeting",
      "eventDate": "2026-08-04",
      "eventTime": "14:00",
      "type": "meeting",
      "matterId": 12,
      "matterTitle": "State of Delhi vs. Rahul Sharma",
      "clientId": 5,
      "clientName": "Rahul Sharma",
      "court": "Chamber 402, High Court Block",
      "notes": "Discuss cross-examination strategy.",
      "urgent": true,
      "ownerId": 1,
      "ownerName": "Admin User",
      "createdBy": 1
    }
  ]
}
```

GET /api/matters

Initiator: DiaryPageComponent.loadEvents() → Line 254 (this.ds.loadMatters())

Purpose: Loads practice matters to resolve matter titles, client links, and court names for events, tasks, filings, and hearings displayed in the diary calendar.

QUERY PARAMETERS / REQUEST PAYLOAD

None

RESPONSE PAYLOAD FORMAT (200 OK)

```
{
  "status": 200,
  "message": "Success",
  "data": [
    {
      "id": 12,
      "title": "State of Delhi vs. Rahul Sharma",
      "caseNo": "CRL.A. 403/2025",
      "cnrNumber": "DLHC010045122025",
      "clientId": 5,
      "clientName": "Rahul Sharma",
      "court": "Delhi High Court",
      "type": "Criminal Appeal",
      "status": "Active",
      "advocate": "Admin User",
      "coCounsel": null,
      "opposingCounsel": "Adv. Rajesh Kumar",
      "limitationDeadline": null,
      "relatedMatterId": null,
      "createdAt": "2026-07-01T10:00:00Z",
      "updatedAt": null,
      "tenantId": "default"
    }
  ]
}
```

GET /api/tasks

Initiator: DiaryPageComponent.loadEvents() → Line 257 (this.ds.loadTasks())

Purpose: Merges open tasks with due dates onto the advocate diary calendar under the "Task Due" deadline category.

QUERY PARAMETERS / REQUEST PAYLOAD

None

RESPONSE PAYLOAD FORMAT (200 OK)

```
{
  "status": 200,
  "message": "Success",
  "data": [
    {
      "id": 44,
      "title": "File Rejoinder Affidavit",
      "description": "Prepare and submit rejoinder in High Court",
      "matterId": 12,
      "matterTitle": "State of Delhi vs. Rahul Sharma",
      "assignedTo": "Admin User",
      "priority": "High",
      "dueDate": "2026-08-05",
      "done": false,
      "status": "Open",
      "type": "Task",
      "createdBy": "Admin User"
    }
  ]
}
```

GET /api/filings

Initiator: DiaryPageComponent.loadEvents() → Line 258 (this.ds.loadFilings())

Purpose: Merges pending filing deadlines onto the advocate diary calendar under the "Filing Due" deadline category.

QUERY PARAMETERS / REQUEST PAYLOAD

None

RESPONSE PAYLOAD FORMAT (200 OK)

```
{
  "status": 200,
  "message": "Success",
  "data": [
    {
      "id": 8,
      "title": "Interlocutory Application for Stay",
      "matterId": 12,
      "matterTitle": "State of Delhi vs. Rahul Sharma",
      "court": "Delhi High Court",
      "filingType": "Application",
      "stage": "Drafting",
      "status": "Draft",
      "dueDate": "2026-08-04",
      "filedDate": null,
      "advocate": "Admin User",
      "notes": null,
      "s3Url": null,
      "source": "manual"
    }
  ]
}
```

GET /api/hearings/filter

Initiator: DiaryPageComponent.loadEvents() → Line 259 (this.ds.filterHearings('All'))

Purpose: Merges scheduled court hearings directly into the advocate diary view.

QUERY PARAMETERS

```
?type=All
```

RESPONSE PAYLOAD FORMAT (200 OK)

```
{
  "status": 200,
  "message": "Success",
  "data": [
    {
      "id": 101,
      "matterId": 12,
      "caseTitle": "State of Delhi vs. Rahul Sharma",
      "court": "Delhi High Court",
      "bench": "Court No. 3 (Bench B)",
      "hearingDate": "2026-08-04",
      "hearingTime": "10:30 AM",
      "status": "Scheduled",
      "purpose": "Arguments",
      "judgeName": "Hon'ble Mr. Justice A.K. Roy",
      "tenantId": "default"
    }
  ]
}
```

2. User Action / Mutation APIs

POST /api/diary/events

Initiator: DiaryPageComponent.save() → Line 445 (this.ds.createDiaryEvent())

Purpose: Triggered when the advocate submits the "Add Diary Event" modal form.

REQUEST BODY PAYLOAD

```
{
  "title": "Client Strategy Meeting",
  "eventDate": "2026-08-04",
  "eventTime": "14:00",
  "type": "meeting",
  "matterId": 12,
  "court": "Delhi High Court",
  "notes": "Discuss cross-examination strategy.",
  "urgent": true
}
```

RESPONSE PAYLOAD FORMAT (201 CREATED)

```
{
  "status": 201,
  "message": "Event added to diary.",
  "data": {
    "id": 302,
    "title": "Client Strategy Meeting",
    "eventDate": "2026-08-04",
    "eventTime": "14:00",
    "type": "meeting",
    "matterId": 12,
    "matterTitle": "State of Delhi vs. Rahul Sharma",
    "clientId": 5,
    "clientName": "Rahul Sharma",
    "court": "Delhi High Court",
    "notes": "Discuss cross-examination strategy.",
    "urgent": true,
    "ownerId": 1,
    "ownerName": "Admin User",
    "createdBy": 1
  }
}
```

PUT /api/diary/events/{id}

Initiator: DiaryPageComponent.saveEdit() → Line 462 (this.ds.updateDiaryEvent())

Purpose: Triggered when the advocate edits an event via the "Edit Diary Event" modal form.

REQUEST BODY PAYLOAD

```
{
  "title": "Updated: Client Strategy Meeting",
  "eventTime": "15:00",
  "urgent": false
}
```

RESPONSE PAYLOAD FORMAT (200 OK)

```
{
  "status": 200,
  "message": "Success",
  "data": {
    "id": 302,
    "title": "Updated: Client Strategy Meeting",
    "eventDate": "2026-08-04",
    "eventTime": "15:00",
    "type": "meeting",
    "urgent": false
  }
}
```

DELETE /api/diary/events/{id}

Initiator: DiaryPageComponent.deleteEvent() → Line 472 (this.ds.deleteDiaryEvent())

Purpose: Triggered when the advocate confirms deletion of an event.

REQUEST PAYLOAD

None

RESPONSE PAYLOAD FORMAT (200 OK)

```
{
  "status": 200,
  "message": "Success",
  "data": null
}
```
